

ACCESSING AND USING GLOW

I realise that some of you may not have been able to access Glow, or it's been a while and you may have forgotten. The link takes you to an instructional video which may be of help: <https://youtu.be/aqD8U0dA1TE>.

INSTRUCTIONS FOR USING GOOGLE CLASSROOM

Accessing Google Classroom:

Google classroom invitations will be sent to the Glow email address. If it's your first time accessing the classroom, you'll need to follow these instructions:

When you click the invitation link from your email, you'll be directed to a google login page which asks for login details. This is just your Glow ID ending with as.glow.scot (gw##studentname@as.glow.scot). When you've done this once, you'll be able to access Google classroom from the Auchnagatt Glow homepage.

Add an App (Google Classroom) to your Glow Launchpad:

(<https://youtu.be/ITTiI473ROA>). You can use the same instructions to add Google classroom (just search Google classroom instead of World Book) to your launchpad. This makes it quicker and easier to access Classroom when you need it. If you're accessing Google classroom on a handheld Apple or Android device, there is an app available which is very user friendly.

Submitting / completing tasks on Google Classroom:

The video in the link (<https://www.youtube.com/watch?v=GGWtPdcb48s>) will show you how to upload files and submit work on Google classroom.
